

2 JUL 1959

MEMORANDUM FOR: Director of Central Intelligence

SUBJECT : Survey of the Deputy Director (Plans) Area

1. The attached survey of the Deputy Director (Plans) area deals primarily with major problems identified in this and previous Inspector General surveys. Major changes are recommended in the concepts and organizations of the senior staffs and the SR Division. If implemented these changes will initially result in savings of 377 positions and ~~also~~ <sup>also</sup> make possible substantial additional personnel savings in the area divisions.

2. During the latter stages of the survey the DD/P requested an advanced report on our conclusions for consideration in his own reorganization plans. These preliminary conclusions, furnished to the DD/P in late May, constitute an excellent summary of the survey. A copy is attached for your information and as a guide to the sections of the survey which you may consider of greatest immediate interest.

3. Also attached is a memorandum for your signature forwarding the survey to the DD/P and requesting a report on his implementing actions by 10 October 1959.

Lyman B. Kirkpatrick  
Inspector General
